

# Skandilock Curly 17 mm

Art. no 111101–

Skandilock Curly 17mm is developed for furniture upholstery but can also be used for different furnishing assignments. The wool has a curly texture and is high in density which makes it durable and soft.

Curly 17mm comes in three color collections. In the Classic Collection, the wool has been dyed with highlighted tips and darker base which gives the overall appearance a beautiful marbled finish. In the Standard Collection the wool is dyed in one color tone which gives an even end result that enhances the curly texture of the wool. Limited Collection are colors that varies in stock and therefore the lead times can be longer when ordered in larger quantities.

Natural variations in color shade and wool character are likely to occur. When dyeing the skins, differences in fiber thickness and overall density means that the skin's ability to absorb dye varies within the same color batch.

## Colors

### Classic collection

### Standard collection

### Limited collection

## Origin raw material

Australian Crossbred, Lamb/Sheep

## Leather

Thickness

1–3 mm

## Wool
